Hello All:

Before this goes to HQ for final review, I wanted it to be reviewed from the Regions. I need your comments back by Monday, September 21 so that we can finalize this and have Region 8 forward on to HQ for a review prior to getting signatures. I am hoping there will not be significant issues since most have seen this as it has gone through development.

For Region 9, I am not sure exactly what the has been from the State of Arizona. Please make sure this is covered appropriately.

Thanks

Gary Moore
